## Can we give access to our partners/clients?

Posted by Mario Boutet - 2008/01/23 14:40

---

Absolutely, in fact this can be a very powerful use of DocBanq - to enable collaboration with suppliers, peers, contractors and customers.

Give access to your clients, allow project teams made from employees, contractors and consultants to collaborate upon the one document set - the list of scenarios is endless.
